

List of Byways (BOATs) in Surrey

When using byways please remember

1. **Rights of Way (ROW)** should always be clearly marked with direction and status indicators; Byways are waymarked with red arrows. You must not use either Public Bridleways, waymarked with blue arrows or Public Footpaths, waymarked with yellow arrows.
2. **Traffic Regulation Orders (TROs)** are used to close a Byway for repairs or alterations or to permanently prohibit vehicular traffic. You must follow the instructions displayed on the notices erected at the end of the affected section.
3. **Courtesy in the Countryside** - You have the same obligation to drive or ride carefully and considerately on a Byway as you have on any other road. You should be aware of the Codes of Conduct of the various user organisations, which include:
 - a) Slow down and be ready to stop if you meet other users (these may be walkers, cyclists or horse riders).
 - b) Give horses and animals a wide berth and if possible switch your engine off when they are passing you.
 - c) Leave gates as you find them; make sure that they are secure in either position.
 - d) Avoid trailing mud on to tarmac roads when leaving an unsurfaced ROW.
 - e) Do not use lanes which are too narrow for your vehicle. Avoid if at all possible damage to trees, hedgerows and boundaries. Report any obstructions or overgrown ways to the Countryside Access Group.
 - f) Minimise erosion and damage to vulnerable surfaces, especially in wet weather.

The County Council welcomes initiatives by all user groups to organise volunteer working parties for the improvement of the ROW network. There are Public Liability Indemnity implications in these, however, and work should only be done in conjunction with the user groups and the County Council.

4. **Byways** and their adjoining banks are historic landscape features. Please help to conserve them by not using them in very wet weather, when use will damage the surface, and **do not** drive on or over boundary banks, which are often hundreds of years old and can never be replaced.

There are a number of off – road clubs which have strict codes and pro-actively help in managing the byways through volunteer activity. The Countryside Legal Team would encourage all off – road drivers to join such a group.
